REDEPLOYABLE DOMES

WCCTV's redeployable CCTV cameras are all-in-one surveillance solutions that are specifically designed to deliver live and recorded HD images via 4G mobile transmission.

They combine an infrared PTZ camera, local recording capacity (up to 4TB) and wireless transmission technology into a portable and lightweight unit.

Redeployale CCTV cameras are easy to install and maintain, and can be quickly mounted to existing lamp post or buildings to help tackle anti-social behaviour, fly-tipping and other surveillance requirements.

They are easy to move to a new location should new applications emerge, and all footage can be accessed remotely via WCCTV free, unlicensed viewing software (desktop and mobile).

The units feature three additional input channels, allowing secondary cameras such as ANPR cameras, PTZ cameras or static cameras to be integrated.
