Fuel & Chemical Facility Security

Security Systems for Fuel & Chemical Sites

Securing High-Risk Storage Facilities

Fuel depots, chemical storage facilities and hazardous material sites need specialist security to prevent theft, trespassing and deliberate sabotage.

A break-in at these locations isn't just costly - it can lead to major safety risks and environmental damage.

WCCTV provides rapid deployment security solutions designed to protect both operational storage sites and new-build facilities.

Our CCTV Towers provide an immediate security presence, acting as a deterrent, real-time threat detection system and response trigger.

Whether you need temporary security during construction or a long-term surveillance solution, WCCTV offers rental and purchase options to match your site's needs.

Why Fuel & Chemical Operators Choose WCCTV

Managed Service

Our CCTV Towers come with a fully managed service, covering installation, maintenance, alarm monitoring, connectivity, technical support and reporting. Whilst you focus on operations, we'll handle security, ensuring complete protection.

Rental Systems

Whether you're securing a permanent facility or a new-build storage site, we provide security that adapts to your needs. With rental and purchase options available, you get the right level of protection without further costs.

Crime Deterrent

Standing 7m tall and painted bright yellow, our CCTV Towers create a highly visible deterrent, making it clear that your site is monitored and protected against theft, trespassing and sabotage.

Remote Monitoring

Stay connected to your site from anywhere with our free mobile app and desktop platform. View live and recorded footage, respond to incidents in real time, or let our NSI Gold Accredited monitoring team handle security for you.

Reduce Costs

Our fully managed security service delivers proactive, around-the-clock protection at a fraction of the cost of traditional guarding. Combining video analytics, remote monitoring, and rapid response, it offers a smarter, more efficient form of security.

Autonomous Options

Our CCTV Towers run on solar, hybrid and fuel cell power, providing reliable security for fuel depots, chemical storage sites and remote facilities - even in areas without mains electricity.

Deployable CCTV for Fuel & Chemical Facilities

Eco Tower

The WCCTV Eco Tower is a battery-powered CCTV solution ideal for reducing fuel use, noise, and emissions on low-power sites.

CCTV Rental for Fuel & Chemical Storage Security

No Upfront Costs – Just Reliable Protection

Permanent CCTV installations are not the answer to every security challenge, especially not at sites undergoing construction, development, or expansion - these sites need a temporary and budget-efficient security solution.

Buying CCTV cameras comes with immediate upfront costs, plus residual expenses related to storage, maintenance and technology upgrades. Renting from WCCTV removes these burdens whilst giving you immediate access to reliable security with no strings attached.

Renting cameras also allows you to scale security as needed - deploy CCTV Towers where and when required, then adjust coverage to match evolving risks.

The Smarter CCTV Option for Storage Sites

Smart, Scalable Security Without Commitments

Your security requirements may only be temporary, but the consequences of an unprotected site can have long-lasting consequences. Renting CCTV allows you to secure your facilities without costly equipment purchases.

WCCTV makes security simple by removing the burden of storing, transporting or maintaining your cameras.

- **No Upfront Costs:** Comprehensive security with no capital investment
- **Quick Deployment:** We deliver, install and maintain your system
- **Scalable Coverage:** Adjust your security as projects evolve
- **Latest Technology:** Access advanced surveillance kit without upgrade costs
- **Easiest Procurement:** Avoid long approval processes

Security Services Managed For You

Fully Managed Security for Storage Facilities

Fuel and chemical storage sites require constant protection, but managing security shouldn't take up your time. WCCTV's fully managed service ensures your site stays secure without adding to your workload.

We handle everything from site surveys and CCTV tower installation to live monitoring, mobile guard response, maintenance and ongoing support. You'll also have full access to our mobile app and desktop platform, giving you real-time oversight and complete control over site security.

With nationwide coverage and rapid response, WCCTV delivers comprehensive, proactive security, protecting critical infrastructure locations from theft, trespassers and operational disruptions.

Live Video Monitoring for Storage Facilities

Your Virtual Security Team

A CCTV Tower at your fuel or chemical storage site provides a strong security presence, but why just record crime when you can prevent it?

With WCCTV's live video monitoring services, an NSI Gold Accredited security team oversees your site, detecting threats and triggering an immediate response before crimes occur.

The built-in infrared detection system in our CCTV Towers creates a virtual perimeter, instantly alerting our monitoring team if an intruder attempts to gain access. They activate deterrents and escalate the response as needed to protect your assets.

1

Live audio warnings to challenge intruders before they act

2

Immediate escalation to police or on-site security for a rapid response

Mobile Keyholding for Storage Facilities

We Respond, So You Don't Have To

Strengthen your security beyond CCTV Towers and live monitoring with Mobile Keyholding Response, ensuring a rapid on-site presence when it matters most.

If unauthorised activity is detected at your site, trained security professionals are dispatched to assess and manage the situation, so your team isn't disturbed outside of working hours.

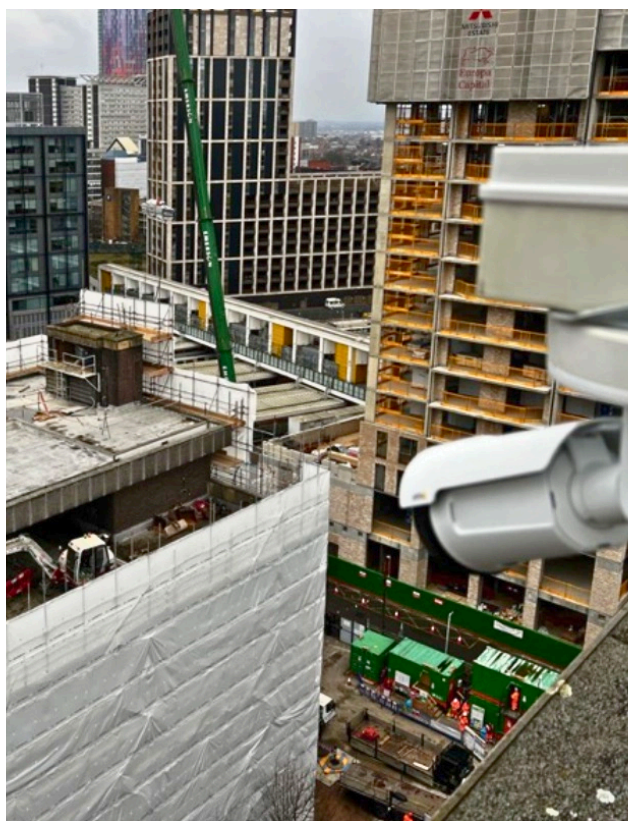

Instead of taking a late-night call about a security breach, let our experienced personnel secure the site, handle escalation if needed and provide a full incident report, so you always stay informed.

With CCTV surveillance, live monitoring and mobile security response, your storage facility stays protected without disrupting your

Time Lapse Filming for Storage Facility Upgrades

Showcase Your Storage Site Projects

WCCTV provides high-quality time lapse video solutions to capture the development, expansion and upgrades of fuel and chemical storage facilities.

Whether documenting the construction of new storage tanks, facility expansions or critical infrastructure upgrades, our autonomous cameras ensure every milestone is recorded.

Our creative team handles everything - from installation to final production - delivering a professional, shareable video with music, animations and text overlays.

Ideal for stakeholder engagement, compliance documentation and project tracking, time lapse videos provide a visual record of your site's transformation.

Why Choose WCCTV for Your Surveillance Solution

UK's Most Established CCTV Tower Supplier

WCCTV is the UK's original and most experienced supplier of rapid deployment CCTV towers.

We don't resell third-party equipment or bolt together off-the-shelf kits. Every tower is developed in-house by our own engineering team and supported by a service model built around the needs of real sites in the UK.

Our product range is the most complete on the market, with tower variants for every power setup, environment and deployment type. From construction sites and infrastructure projects to public space monitoring and vacant property protection, our systems are trusted by hundreds of organisations across the UK.

Whether you need one tower or a full network, Wireless CCTV gives you proven technology, complete control and full-service support from a single provider.
