

WCCTV

Residential Construction Security

Live Monitored CCTV for Home Build Projects

Security Built for Residential Construction

Securing a residential development brings many challenges. Multiple plots, open perimeters and combustible materials increase the risk of theft, arson and trespass.

WCCTV's live monitored CCTV systems are built to: deter criminal activity on active and vacant plots, protect plant, materials and timber frame structures and support site managers with remote access and time-lapse footage.

We know home builders need security that fits around busy build schedules, so our fully managed service includes: CCTV system hire, installation and relocation, 24/7 live video monitoring and mobile key holding, technical support, health checks and remote diagnostics and Footage access via desktop and mobile app.

Protect every phase of your development with minimal disruption. We handle your site security so you can focus on delivery.

Why Fuel & Chemical Operators Choose WCCTV

Managed Service

We provide much more than CCTV units; every deployment is backed by a fully managed service that covers installation, connectivity, remote monitoring, maintenance and support. You don't need to manage security yourself, you just need the right partner.

Rental Systems

Our short-term rental model is ideal for phased developments - delivering flexible, reliable security throughout each stage. Once your project wraps, we handle removal, with no need for storage, servicing, or long-term commitments.

Crime Deterrent

High-profile, visibly deployed units equipped with audio challenge capabilities deter criminals before they even set foot on site. And if an incident occurs, it's dealt with in real time - ensuring rapid, effective response and minimal disruption.

Remote Monitoring

Easily access live and recorded footage anytime through our mobile app or desktop portal. Prefer a hands-off approach? Our NSI Gold Accredited monitoring partners provide 24/7 surveillance to keep your site protected around the clock.

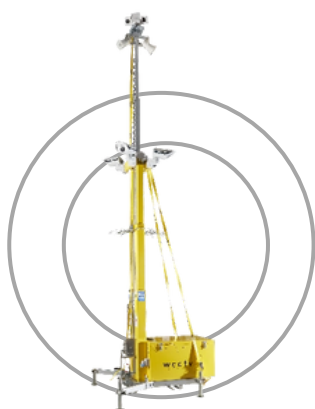

Reduce Costs

Our fully managed security service delivers proactive, around-the-clock protection at a fraction of the cost of traditional guarding. Combining video analytics, remote monitoring, and rapid response, it offers a smarter, more efficient form of security.

Built for Construction

Whether you're securing early groundwork, timber frame builds, or completed plots, our systems deliver reliable protection without the need for fixed power or Wi-Fi — making them ideal for even the most remote or evolving sites.

Cameras for Home Build Site Security

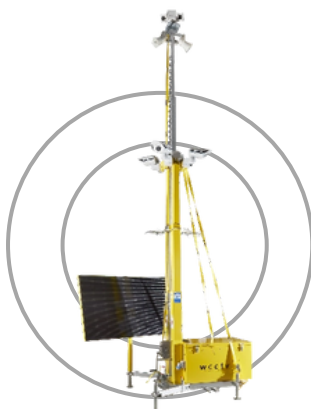

Eco Tower

The WCCTV Eco Tower is a battery-powered CCTV solution ideal for reducing fuel use, noise, and emissions on low-power sites.

CCTV Towers for Residential Site Security

Rapid Protection for Active Home Build Sites

Our Rapid Deployment CCTV Towers deliver instant, reliable security for residential construction sites at every stage of the build.

Standing 7m tall and finished in bright yellow, the towers act as a clear deterrent to intruders, showing that the site is protected by live monitored CCTV.

Installation is quick and non-disruptive. Each tower includes HD cameras, infrared sensors and wireless video transmission, with no need for power or internet on-site.

You can choose from solar power or eco-friendly fuel cell options, giving you full flexibility across early groundwork, open plots and new build zones.

Flexible Rental Options for Fully Managed Systems

Security Without the Hassle

Home builders don't have time to manage cameras, chase support teams or worry about site security. That's why WCCTV provides a fully managed service so you don't have to think about it.

Every system, whether it's a CCTV Tower, Redeployable Camera or Hornet PID, is available on a flexible rental basis. There's no upfront investment, no long-term commitment and no need to store or maintain equipment. You benefit from:

- Site assessment and expert placement guidance
- Delivery, installation and setup
- Live video monitoring and mobile keyholding
- Ongoing maintenance, diagnostics and support

Redeployable CCTV for Residential Sites

Compact Coverage for Key Areas

Our redeployable CCTV units provide flexible, high-performance security for areas that need close-up monitoring.

They're ideal for smaller compounds, urban developments, show homes, site entrances and completed plots.

Easily mounted to existing poles or buildings, they offer a compact but powerful security presence. The cameras record in HD, transmit footage wirelessly and are monitored live by our accredited partners.

Each unit is quick to install and can be relocated in minutes to match the flow of the project. They're fully self-contained and designed for temporary or long-term use.

Live Monitoring for Residential Construction

See and Stop Crime in Real Time

Installing cameras is one thing. Preventing crime before it happens is something else entirely. WCCTV's live CCTV monitoring service for construction sites ensures your assets are actively watched, not just recorded.

Our systems use motion detection to create a virtual perimeter around vulnerable areas. When triggered, an alert is sent instantly to our NSI Gold Accredited monitoring partners, who review the footage, issue an audio warning and escalate if needed.

How We Respond to Threats:

- Motion sensors detect movement
- Our operators verify the threat in real time
- Audio warnings are issued to challenge intruders
- Police or keyholders are contacted if necessary

Mobile Keyholding for Residential Construction

On-Site Response Without the 2am Calls

When an incident happens out of hours, someone needs to respond. WCCTV's mobile keyholding service means that person isn't you and that a trained security professional handles the situation.

Our keyholding partners are fully licensed, know how to deal with construction site risks and can access the site safely when needed. They respond to verified alerts from our monitoring team, conduct checks and report back with a detailed incident log.

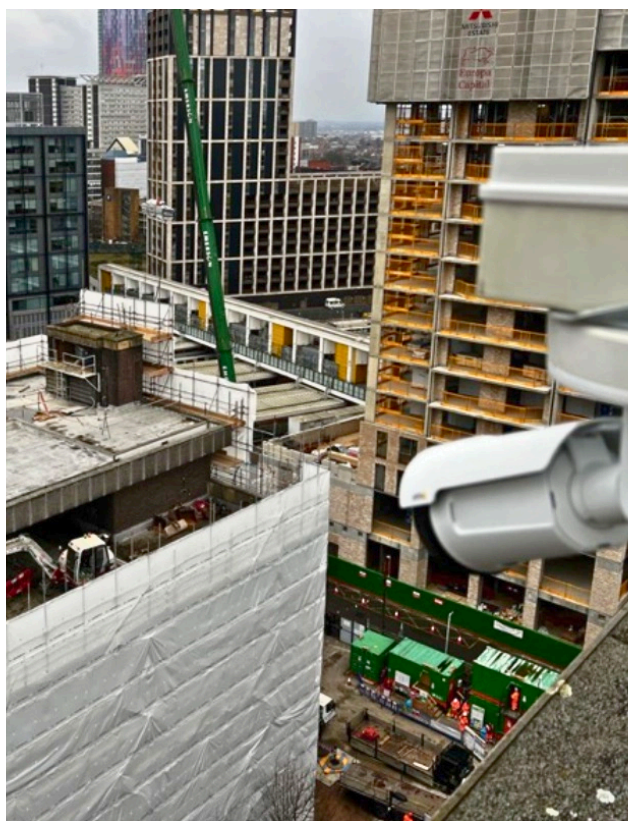

What Our Keyholding Service Includes:

- Rapid response to verified threats
- Site access for police, contractors or emergency services
- Regular patrols on request & clear reporting

Time Lapse Production for Your Home Build Project

See Your Construction Project Come to Life

Capturing the whole process from foundations to completed residential area, Time Lapse Video offers a unique, high quality solution to show case your project.

Our team works with you to capture your project's progress, focusing on specifications and milestones to deliver a video that highlights every detail.

Even if your site has no power, camera mounting poles or connectivity, we can provide a seamless solution, ensuring no project goes undocumented.

Our in-house creative team handles all post-production, turning your footage into a professional, interactive video complete with music, animations and text overlays - perfect for sharing with stakeholders or promoting your achievements on your website and social media channels

Why Choose WCCTV for Your Surveillance Solution

UK's Most Established CCTV Tower Supplier

WCCTV is the UK's original and most experienced supplier of rapid deployment CCTV towers.

We don't resell third-party equipment or bolt together off-the-shelf kits. Every tower is developed in-house by our own engineering team and supported by a service model built around the needs of real sites in the UK.

Our product range is the most complete on the market, with tower variants for every power setup, environment and deployment type. From construction sites and infrastructure projects to public space monitoring and vacant property protection, our systems are trusted by hundreds of organisations across the UK.

Whether you need one tower or a full network, Wireless CCTV gives you proven technology, complete control and full-service support from a single provider.
