

WCCTV

Event CCTV Security Solutions

Event CCTV Hire with a Fully Managed Service

Temporary Security for Events of All Sizes

From festivals and concerts to public gatherings and major sporting events, high-footfall environments demand a clear and immediate view of what's happening.

WCCTV's temporary CCTV systems provide event organisers with powerful tools to monitor security, crowd behaviour and infrastructure in real time.

Our rapid deployment units are purpose-built for live events. They're fast to install, easy to reposition and capable of delivering high-quality footage across wide areas.

Every system is available on a short-term rental basis and includes everything you need: installation, configuration, live video monitoring, maintenance, technical support and access to live or recorded footage via mobile or desktop.

Why Events Management Teams Use WCCTV

Rapid Deployment

Our CCTV systems can be rapidly deployed within minutes, delivering immediate security coverage to protect your event from the outset - deterring unauthorised access, monitoring crowds, and enabling swift incident response.

Autonomous Power

Our CCTV can be supplied with autonomous power options, including renewable solar energy supported by eco-friendly methanol fuel cells, allowing them to operate reliably in virtually any environment without the need for mains power.

Rental Options

"With our flexible camera rental options, you only pay for security when you need it. Our team will deliver and install the equipment at your location, then return to collect it once your event is over - making the entire process hassle-free.

Remote Monitoring

Easily manage your event with remote access to your WCCTV cameras from anywhere. View live or recorded footage in real time and stay fully informed on activity and progress at every stage.

Flexibility & Mobility

"Our portable camera units can be quickly and easily repositioned across your locations to adapt to evolving security needs, ensuring optimal surveillance coverage across all event zones.

Crime Deterrent

Highly visible mobile CCTV units serve as a strong deterrent, helping to discourage potential misconduct or criminal activity and promoting a safer, more secure environment throughout your event.

Rapid Deployment CCTV Towers for Events

Total Coverage for Any Event

WCCTV's mobile CCTV towers are designed to secure large, complex, and fast-moving event environments.

They're widely used at music festivals, sports fixtures, conventions, political summits, public demonstrations, stadiums and large outdoor rallies.

The towers offer high-definition multi-camera coverage, infrared motion detection, and live audio address to deter unwanted activity.

Optional ANPR integrations support vehicle access control for event logistics and restricted zones. All footage is accessible via desktop and mobile, with our NSI Gold accredited partners providing real-time video monitoring.

Fully self-powered through solar and battery technology, towers can also be backed up with fuel cell or generator options. No fixed internet or power is required.

Redeployable CCTV for Events

Portable Cameras for Flexible Coverage

WCCTV's redeployable CCTV cameras are the ideal solution for targeted coverage at events with complex layouts, changing security needs or areas not suited for towers.

They can be installed on existing infrastructure such as lighting columns, buildings or temporary masts to monitor entry gates, concession areas, walkways and key crowd zones.

- Infrared motion detection
- Audio address capability
- Remote access via mobile and desktop
- Built-in recording and analytics

These systems are perfect for high-footfall zones that require flexible placement and a smaller footprint. Redeployable units are supported by live video monitoring and a fully managed service.

Body Cameras for Event Security Teams

Protect Staff Working Among Crowds

WCCTV's body cameras provide frontline teams with an added layer of safety when working among large crowds at events. They help deter aggressive behaviour, support post-incident reviews and offer valuable footage for compliance and training.

Our systems are trusted by local authorities, event organisers and private security teams working across major public gatherings to capture vital evidence and support personal safety.

- One-touch recording
- Full HD video with audio
- Secure, tamper-proof storage
- Integration with WCCTV's camera systems

Whether monitoring entrances, patrolling event zones or dealing with public safety incidents, body-worn cameras support a safer, more accountable working environment.

Rental CCTV Backed by a Fully Managed Service

Everything You Need for a Safer Event

WCCTV provides temporary CCTV systems on a flexible rental basis, giving you complete site coverage without the hassle of ownership or setup.

- Expert advice on the best camera placement for your event
- Professional installation and full system setup
- Live video monitoring via our NSI Gold accredited partners
- Ongoing maintenance and technical support
- Remote access to live and recorded footage via mobile or desktop

Whether you're planning a multi-day festival, one-off stadium fixture or a public gathering with unpredictable movement, we handle everything from deployment to monitoring and breakdown. It's reliable protection that adapts to your event schedule.

Live CCTV Monitoring for Event Safety

Real-Time Oversight and Response

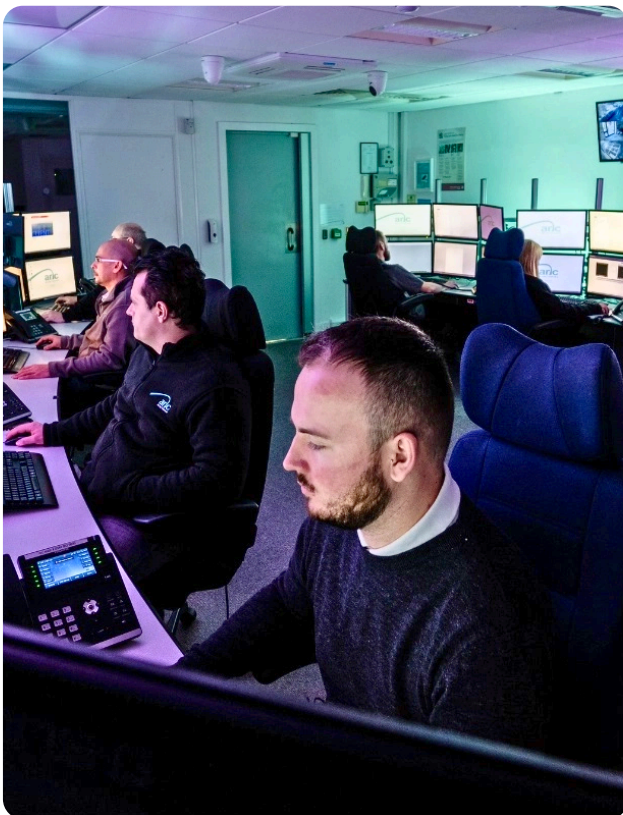

WCCTV's CCTV systems can be connected to live video monitoring services delivered by our NSI Gold accredited partners.

Monitoring teams provide real-time oversight of key event areas including:

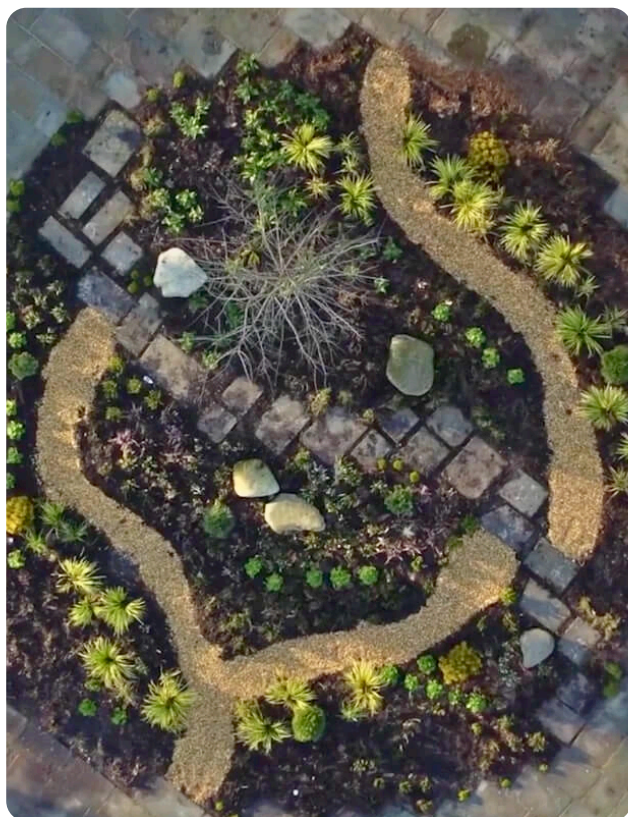

- *Entries, exits and perimeters*
- *Crowd hotspots*
- *Car parks and temporary road closures*

When unusual activity is detected, they can intervene immediately. That includes triggering alarms, activating audio address systems or escalating to on-site teams.

- *Deter anti-social behaviour*
- *Monitor crowd surges and bottlenecks*
- *Respond quickly to medical incidents or emergencies*

Support for Martyn's Law Compliance

Proactive Detection and Crowd Protection

Martyn's Law is a UK legislation inspired by Martyn Hett, a victim of the Manchester Arena bombing in 2017. The law aims to strengthen security measures at event venues to counter and effectively respond to terrorist threats.

WCCTV's rapid deployment CCTV systems play a key role in helping event organisers comply with Martyn's Law by delivering:

- **Real-time visual oversight** to help security teams detect suspicious behaviour early
- **Integrated audio address** capabilities to issue live instructions and safety messages to attendees
- **Instant alerts** to monitoring teams when unusual activity is detected
- **Recorded footage** to support investigations and training

Why Choose WCCTV for Your Surveillance Solution

UK's Most Established CCTV Tower Supplier

WCCTV is the UK's original and most experienced supplier of rapid deployment CCTV towers.

We don't resell third-party equipment or bolt together off-the-shelf kits. Every tower is developed in-house by our own engineering team and supported by a service model built around the needs of real sites in the UK.

Our product range is the most complete on the market, with tower variants for every power setup, environment and deployment type. From construction sites and infrastructure projects to public space monitoring and vacant property protection, our systems are trusted by hundreds of organisations across the UK.

Whether you need one tower or a full network, Wireless CCTV gives you proven technology, complete control and full-service support from a single provider.
