Police & Public
Forces CCTV

How WCCTV Supports UK Police Forces

Supporting Visibility, Evidence and Control

Police operations often require rapid, flexible surveillance to respond to changing intelligence or emerging threats.

WCCTV systems are used to monitor high-crime areas, support live investigations, manage large public events or provide a visible deterrent in vulnerable locations.

Whether it's monitoring a street-level drug operation, gathering footage for a serious crime investigation or temporarily covering a surveillance gap, our systems are ready to deploy in minutes. They don't rely on fixed infrastructure and can be repositioned as priorities shift.

Used overtly or discreetly, each unit delivers secure, high-quality footage that can be accessed remotely, reviewed quickly and used as evidence.

Why Police Forces Use WCCTV Systems

Rapid Deployment

Units can be set up by officers within minutes, providing fast surveillance coverage during time-critical incidents, live investigations or major operations. No fixed infrastructure or specialist installers required.

Easily Relocatable

Easily moved between locations to respond to shifting threats, operational demands or intelligence. Ideal for rotating across hotspot areas, covert deployments or supporting multi-agency operations.

Flexible Power Options

Systems can operate using mains electricity, battery power, or solar energy, ensuring flexibility and continuous performance in a wide range of environments - from busy towns and city centres to remote rural areas or locations lacking reliable infrastructure.

Remote Monitoring

View and manage footage in real time from any connected device.

Officers and control room staff can review evidence, monitor live scenes or check system status without needing to be on site.

Secure & Compliant

Footage is securely encrypted and stored in accordance with national policing and evidential standards, ensuring the full chain of custody is maintained and all data remains GDPR compliant.

Complete Integration

Compatible with existing control rooms and VMS platforms. Units can be monitored centrally or accessed by designated teams, supporting both tactical and strategic deployments.

Mobile CCTV Solutions for Policing

4G IR Mini Dome

The WCCTV 4G IR Mini Dome is designed for rapid deployment and discreet monitoring. It's ideal for housing teams, local authorities etc.

Learn More

Covert Dome

The WCCTV Covert Dome enables discreet monitoring and evidence capture where visible cameras may be avoided.

Learn More

Multicam Dome

The Multicam Dome is a redeployable camera with a unique four-lens head, delivering complete 360° coverage from a single unit.

Redeployable CCTV for Policing Operations

Mobile Surveillance That Gets Results

WCCTV's redeployable domes provide police forces with flexible and highly effective mobile surveillance. They can be provided as highly overt crime deterrents or covert evidence-gathering solutions.

Designed for rapid deployment and remote access, they help monitor crime hotspots, gather intelligence and support ongoing investigations.

These systems are trusted by neighbourhood policing teams, serious crime units and enforcement squads to provide reliable coverage in areas without fixed infrastructure.

They're ideal for temporary operations, short-term deployments or monitoring locations that require a low-profile presence. Each unit features HD video, pan tilt zoom functionality, remote access and secure local recording.

Rapid Deployment CCTV Towers for Policing

A Visible Deterrent with Immediate Impact

WCCTV's rapid deployment towers give police forces instant surveillance coverage in high-risk or high-demand areas.

Standing at 6 metres tall with high-visibility livery and warning signage, they deliver a strong overt presence while capturing high-quality video evidence.

Used for crime disruption, public order events, asset protection and community reassurance, towers are trusted by forces across the UK.

They operate without mains power or internet, making them ideal for use in public spaces, town centres, rural areas and temporary deployments. Each unit includes HD video, pan tilt zoom capability, local recording, remote access and optional audio deterrents.

A Complete Service Wrap For Police Deployments

We're More Than a Camera Company

At WCCTV, we understand that reliable surveillance is about more than just the equipment. That's why every system comes with access to our full service bundle, giving your teams everything they need to deploy, operate and manage systems with confidence.

- **Technical Assistance:** Direct access to UK-based experts who understand the demands of frontline policing
- **Training:** Hands-on onboarding to help officers install, operate and reposition equipment
- **Connectivity:** Built-in 4G/5G so you can deploy systems anywhere, without relying on local infrastructure
- **Warranty Cover:** Full protection to keep your systems operational and reduce downtime
- **Guides and Resources:** Documentation to help your team stay in control

Who in Policing Uses WCCTV and Why

Supporting Frontline Officers & Units

WCCTV systems are used across policing teams to deliver fast, flexible surveillance where and when it's needed.

From day-to-day visibility to high-level investigations, our solutions are built to support teams including:

- **Neighbourhood Policing Teams:** Monitor ASB hotspots, deter offending and reassure the public
- **CID and Investigations Units:** Gather reliable evidence, support covert deployments and monitor suspects
- **Public Order and Events Units:** Deploy visible deterrents at protests, football matches or high-profile gatherings
- **Rural Crime Teams:** Monitor remote sites, protect isolated assets and investigate repeat offences

WCCTV Autonomous Solar CCTV Trailer

Surveillance That Goes Wherever You Need It

The WCCTV Solar CCTV Trailer provides a fully autonomous surveillance solution for policing operations that demand flexibility, mobility and extended deployment.

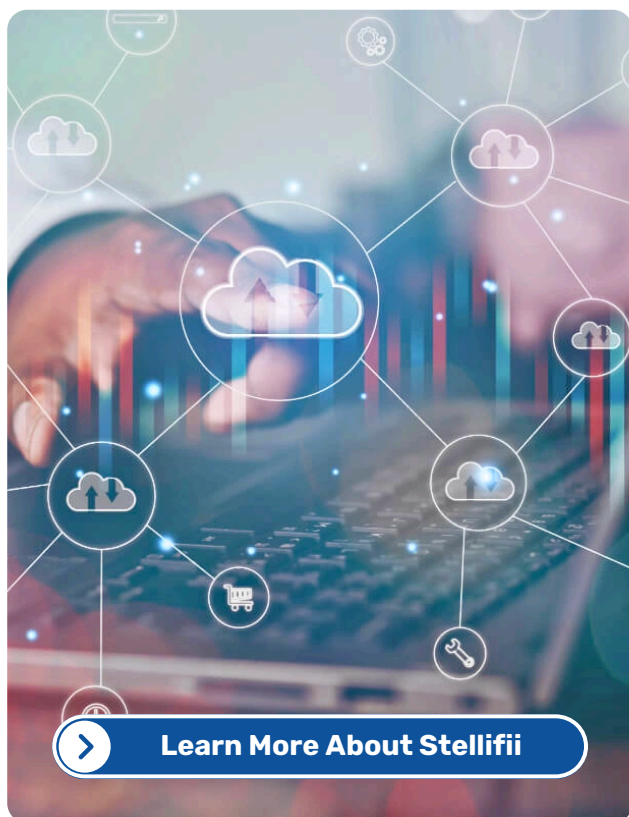

Powered by high-efficiency solar panels and backed by fuel cell technology, it operates entirely off-grid without compromising on reliability or performance.

These trailers are ideal for securing large open spaces, supporting public events, covering hotspot areas or providing a visible deterrent in rural or hard-to-reach locations.

Designed for rapid deployment, they can be towed into position and set up by operational teams with minimal effort. Each unit delivers high-definition video, pan tilt zoom control, local recording and remote viewing via WCCTV's secure 4G/5G transmission.

Stellifii: Smarter Surveillance for Policing

The Intelligence Platform Behind WCCTV

Stellifii is the cloud-based platform that powers WCCTV's redeployable CCTV systems, providing police forces with a smarter, more connected way to manage surveillance.

It integrates live and recorded video, system diagnostics, usage reports and IoT sensor data into a single secure interface, accessible anytime from any device.

Whether you're monitoring crime hotspots, checking camera status or gathering environmental data to support investigations, Stellifii offers a comprehensive solution.

Stellifii is already assisting teams across neighbourhood policing, CID, public order units and rural crime teams to work more efficiently, make informed decisions and reduce unnecessary site visits.

Why Choose WCCTV for Your Surveillance Solution

UK's Most Established CCTV Tower Supplier

WCCTV is the UK's original and most experienced supplier of rapid deployment CCTV towers.

We don't resell third-party equipment or bolt together off-the-shelf kits. Every tower is developed in-house by our own engineering team and supported by a service model built around the needs of real sites in the UK.

Our product range is the most complete on the market, with tower variants for every power setup, environment and deployment type. From construction sites and infrastructure projects to public space monitoring and vacant property protection, our systems are trusted by hundreds of organisations across the UK.

Whether you need one tower or a full network, Wireless CCTV gives you proven technology, complete control and full-service support from a single provider.
