

WCCTV

# Housing Association CCTV Systems

# How We Support Housing Associations in the UK

## Smarter Security for Safer Communities

**From estates and high-rise blocks to communal areas & void properties, housing associations need a reliable way to respond to safety concerns, resident reports and property-related crime.**

But gaps in coverage, stretched resources and the absence of fixed infrastructure make this a constant challenge.

WCCTV's redeployable CCTV systems are designed to meet the specific needs of housing teams. Our technology is used to:

- Monitor known hotspots, communal areas and void properties
- Deter anti-social behaviour, vandalism and fly-tipping
- Support tenancy enforcement and neighbourhood management
- Provide reassurance to residents and support to frontline staff

# Why Housing Associations Choose Us

## Rapid Deployment

Install systems rapidly, avoiding civil works, cabling, or contractors. Ideal for quickly addressing tenant complaints, emerging issues, or short-term surveillance needs, ensuring swift setup and minimal downtime.

## Easily Relocatable

Easily move units between estates, blocks, or neighbourhoods as priorities change. A single system can be redeployed across multiple locations throughout the year, offering flexible coverage wherever it's needed most.

## Clear Evidence Capture

High-definition video provides detailed evidence to support tenancy enforcement, enabling efficient resolution of complaints and thorough gathering of evidence for investigations and legal proceedings.

## Remote Monitoring

View and manage footage in real time from any connected device.

Officers and control room staff can review evidence, monitor live scenes or check system status without relying on external contractors.

## Secure & Compliant

Footage is securely encrypted and stored in accordance with national policing and evidential standards, ensuring the full chain of custody is maintained and all data remains GDPR compliant.

## Trusted by Industry

Trusted by ASB officers, neighbourhood teams, property managers, and tenancy enforcement staff, these systems are relied upon daily to solve a wide range of operational challenges.

# Mobile CCTV Solutions for Housing Associations

## **4G IR Mini Dome**

The WCCTV 4G IR Mini Dome is designed for rapid deployment and discreet monitoring. It's ideal for housing teams, local authorities etc.

**Learn More**

## **Covert Dome**

The WCCTV Covert Dome enables discreet monitoring and evidence capture where visible cameras may be avoided.

**Learn More**

## **Multicam Dome**

The WCCTV Thermal Solar Tower is a solar-powered, thermal CCTV unit for early threat detection and easy redeployment.

# Redeployable CCTV for Housing Associations

## Moveable CCTV That Solves Real Problems

**WCCTV's redeployable cameras give housing teams a quick, practical way to respond to tenant concerns, safeguard properties and reduce anti-social behaviour.**

These portable systems are easy to install, simple to move and suitable for use across estates, high-rise blocks, alleyways, car parks and communal areas.

They're used to monitor persistent ASB, protect void properties from vandalism or squatting and gather evidence to support tenancy enforcement. The visible presence of a camera can also help deter nuisance behaviour and provide reassurance to residents.

Each unit includes HD video, pan tilt zoom control, remote access, local recording and secure data handling. Cameras operate via 4G or 5G and can be powered by mains, battery or solar, depending on the deployment site.

# CCTV Towers for Housing Associations

## A Visible Deterrent For Immediate Security

**WCCTV's CCTV towers provide housing teams with a highly visible, self-contained security and monitoring solution that's ready to deploy wherever issues arise.**

These units are used to deter anti-social behaviour, protect void properties, oversee open spaces awaiting development and support community reassurance initiatives.

Standing 6m tall and painted bright yellow, CCTV towers act as both a powerful visual deterrent and an evidence-gathering tool. They're ideal for use in areas with repeat incidents, limited infrastructure or where fixed systems can not be utilised.

They feature HD video streaming, pan tilt zoom functionality, local recording and secure remote access. They can also include audio intervention capabilities.

# Body Worn Cameras for Housing Teams

## Supporting Staff Safety & Conflict Management

**WCCTV's body worn cameras help housing associations protect frontline staff, reduce conflict and capture reliable evidence during challenging interactions.**

They are trusted by housing officers, wardens, tenancy enforcement teams and ASB officers in public-facing roles or lone worker settings.

The presence of a body camera has been proven to defuse tensions and encourage more respectful behaviour.

When incidents do occur, the footage provides secure, tamper-proof video and audio evidence to support investigations or legal proceedings.

Each camera is backed by our complete solution, which includes encrypted recording, secure evidence management software, a full range of mounting and charging accessories and practical training for your teams.

# A Complete Service Wrap For Housing Associations

## More Than Just the Equipment

Every WCCTV system can be provided with access to a full service bundle to support housing teams with installation, operation, and management of equipment to ensure the best results. We focus on delivering practical support, quick deployments and long-term reliability.

- **Technical Support:** Ongoing access to our UK-based support team whenever you need it
- **Training:** Comprehensive onboarding to ensure your teams understand how to install and use the cameras
- **Connectivity:** Access to our optimised 4G/5G plans to ensure seamless live and recorded video
- **Warranty Cover:** Protection for your equipment and peace of mind for your teams
- **Guides and Resources:** Detailed explainers and step-by-step instructions

# Where WCCTV Helps Housing Associations

## Addressing the Most Challenging Problems

Our mobile CCTV and body cameras are designed to support housing teams with the real-world challenges they face. Whether that's protecting properties or resolving complaints, our technology helps you build safer communities.

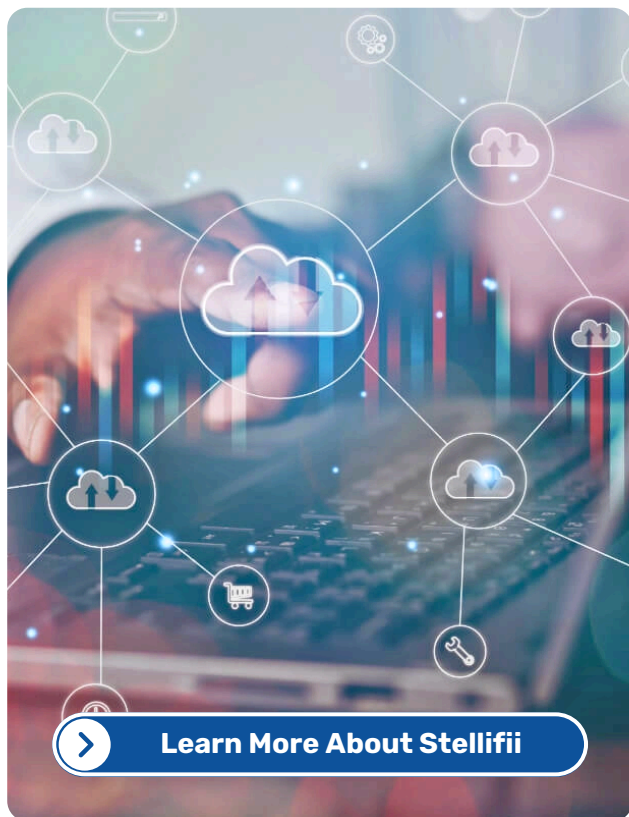

Our systems are ideal for addressing:

- **Anti-Social Behaviour**
- **Vandalism & Property Damage**
- **Fly-Tipping & Environmental Crime**
- **Unauthorised Access & Trespass**
- **Tenancy Management & Disputes**
- **Safeguarding & Resident Reassurance**

WCCTV cameras are easy to install, quick to relocate and designed to work without fixed infrastructure.

# Stellifii: Smarter CCTV Management for Housing

## The Smart Platform Behind WCCTV

**Stellifii is the platform that powers WCCTV's redeployable cameras. Built for real-world use by housing teams, it brings together live and recorded footage, system diagnostics, usage data and IoT sensor integrations in one secure cloud-based system.**

You can monitor multiple sites from a single login, view live feeds, check system status and download footage without ever visiting site. It also tracks performance and connectivity so you know your cameras are working.

Stellifii supports the integration of environmental sensors, allowing housing teams to monitor air quality, noise and other site conditions alongside CCTV activity. This makes it ideal for high-density housing, regeneration projects or estates where complaints and safety concerns overlap.

# Why Choose WCCTV for Your Surveillance Solution

## UK's Most Established CCTV Tower Supplier

**WCCTV is the UK's original and most experienced supplier of rapid deployment CCTV towers.**

We don't resell third-party equipment or bolt together off-the-shelf kits. Every tower is developed in-house by our own engineering team and supported by a service model built around the needs of real sites in the UK.

Our product range is the most complete on the market, with tower variants for every power setup, environment and deployment type. From construction sites and infrastructure projects to public space monitoring and vacant property protection, our systems are trusted by hundreds of organisations across the UK.

Whether you need one tower or a full network, Wireless CCTV gives you proven technology, complete control and full-service support from a single provider.
