# Mobile & Temporary CCTV Systems For Any Location

## Protecting People, Property and Projects

**WCCTV supplies rapid deployment CCTV solutions for temporary security and targeted surveillance, including CCTV Towers, Redeployable CCTV cameras, body cameras and condition monitoring systems.**

Our product range has been specifically designed for autonomous operation, delivering live and recorded images via secure mobile transmission and utilising environmentally and sustainable power sources.

Whether you're looking to secure a construction site, critical infrastructure, vacant property or increase safety in the public realm, we provide fast deployment cameras that help you protect what matters most and bring security where you need it for whatever length of time meets your needs.

# Use Cases For WCCTV's Security Systems

## Construction Sites

Secure your construction sites against theft, vandalism and trespass with our cost-effective live monitored CCTV systems.

## Critical Infrastructure

Our systems protect critical infrastructure from a wide range of crime, no matter how remote the location.

## Public Sector

Reduce criminal activities including anti-social behaviour, fly-tipping and improve community safety.

## Vacant Properties

Rapid deployment security systems for vacant and void properties, including live monitored CCTV to prevent crimes.

# Why Choose WCCTV As Your Security Provider?

WCCTV supplies the highest quality products backed by world-class support services, ensuring our clients achieve their surveillance goals. Our relentless commitment to quality, and our customer-centric approach allows us to offer a range of unparalleled benefits, including:

## **Pedigree**

We have over 20 years of experience working with clients across the globe.

## **Rapid Deployment**

Our systems can be installed in minutes, giving immediate surveillance.

## **Managed Service**

We cover installation, monitoring, connectivity, support, training and more.

## **Relocatable**

Our cameras are designed for portability, allowing easy relocation to new locations.

## **Customer Focus**

We are relentlessly driven by our core value of Customer First.

## **ESG Focused**

We're committed to managing our social and environmental impact.

# Explore Our Extensive Service Range

Different safety and security challenges require different solutions. We have developed a complete product set to meet multiple requirements. All of our products are developed in-house, we never rebadge or resell and our systems are designed for UK sites.

# How Our Fully-Managed Service Works

## We'll Take Care of Your Security

**Every WCCTV system is backed by a fully managed service that reduces the workload from protecting your site, property or project.**

From installation to live monitoring, maintenance and technical support, we take care of everything so you can stay focused on what matters most.

We assess your needs, recommend the right system, deliver it to site and handle setup from day one. Once in place, your system is monitored by our NSI Gold Accredited partners, maintained by our nationwide engineering teams and fully supported throughout its deployment.

If your layout changes, we'll reposition the system. If there's an issue, we fix it. You get fast response times, clear communication and one point of contact from start to finish.

# Setting the Standard in Surveillance & Security

## Memberships & Accreditations

WCCTV holds key industry accreditations that demonstrate our commitment to quality, safety and compliance. Our certified solutions and accredited monitoring services ensure trusted, professional security.

# WCCTV: The UK's Leading Security Supplier

## UK's Most Established CCTV Tower Supplier

**WCCTV is the UK's original and most experienced supplier of rapid deployment CCTV towers.**

We don't resell third-party equipment or bolt together off-the-shelf kits. Every tower is developed in-house by our own engineering team and supported by a service model built around the needs of real sites in the UK.

Our product range is the most complete on the market, with tower variants for every power setup, environment and deployment type. From construction sites and infrastructure projects to public space monitoring and vacant property protection, our systems are trusted by hundreds of organisations across the UK.

Whether you need one tower or a full network, Wireless CCTV gives you proven technology, complete control and full-service support from a single provider.
