## Vacant Property Security

## Protecting Vacant Properties with WCCTV's Surveillance Solutions

Vacant and void properties attract unwanted criminal activities such as trespassing, vandalism, arson and intrusions. Unsecured properties can pose a significant risk to both the public and property managers, with millions of pounds worth of damage caused to vacant properties every year.

Well-secured vacant properties are less of a blight to local communities, attract less criminal activity and are better prepared for re-occupancy or resale. WCCTV's portable, rapid-deployment CCTV systems provide an all-in-one security solution for void properties, at a fraction of the cost of security guards.

Alongside our advanced CCTV systems, we provide a fully managed service that takes the stress out of securing your property and allows you to concentrate on your day job. Our cameras are available on a rental basis, and we'll deliver and collect the equipment as and when you need it.

### Why choose WCCTV?

- **Market-leading** wireless CCTV solutions
- **Fully-Managed Service**
- **24/7/365** remote monitoring
- **Rapid Deployment & Nationwide Support**
- **Integrated AI analytics**
- **Cost effective** alternative to guarding
- **Solar & battery** powered options
- **Integrated solutions for full-site coverage**

**At WCCTV, we leverage over 20 years of industry expertise, cutting-edge technology and a comprehensive range of wireless surveillance solutions to deliver a rapid and effective security response tailored to your properties needs.**

Reduce Security Costs by up to

**88%**

## Rapid Deployment CCTV Towers

**Securing vacant properties requires continuous, proactive surveillance to prevent trespassing, vandalism, and unauthorised access. WCCTV's Rapid Deployment CCTV Towers act as a highly visible deterrent, offering 360-degree HD surveillance, AI-powered analytics, and 24/7 remote monitoring, ensuring swift response to any security threats.**

Our Rapid Deployment CCTV Towers provide immediate, high-quality surveillance coverage in virtually any environment. Our distinctive bright yellow towers stand 6m tall, sending an immediate visual warning to potential criminals that your property is protected.

Deploying a CCTV Tower requires no complex setup. Our HD cameras are equipped with infrared capability to ensure crystal-clear imagery, day or night. With multiple powering options and wireless video transmission technology, you have complete flexibility over where you deploy a WCCTV Tower. There's no need for power or internet facilities.

Our ultra-reliable managed security services can save up to **88%** when compared with the cost of traditional guarding services, without compromising results.

We back our CCTV systems with a **full service** that includes installation, maintenance, alarm monitoring, connectivity, support and ongoing reporting.

With our camera **rental options**, you only need to pay for security when needed. No need to worry about transporting the Towers from job-to-job: we'll deliver and take it away.

At **6m tall and bright yellow**, our CCTV Towers are an unmistakable presence on your sites - warning intruders that your site is under our watchful eye.

# CCTV Systems for Vacant Property Security

**Eco Tower**

The WCCTV Eco Tower is a mobile CCTV unit designed for sites looking to reduce generator use, fuel consumption and external noise.

## Redeployable CCTV Cameras

WCCTV's Redeployable CCTV Cameras provide an ideal security solution for vacant properties, offering flexible, high-performance surveillance without the need for fixed infrastructure. These portable, all-in-one units feature a high-definition PTZ (Pan-Tilt-Zoom) camera, wireless video transmission, onboard storage and AI-powered analytics.

One of the key benefits of our Redeployable Cameras is their ability to be relocated as your construction project progresses. Unlike fixed CCTV systems, these cameras can move with your site, ensuring consistent security coverage from start to finish. They provide 24/7 monitoring for threats such as unauthorised access, theft and vandalism.

They're widely used by housing providers, local authorities and property managers to prevent unauthorised access, antisocial behaviour and criminal damage. If your vacant property doesn't have the footprint required for a CCTV Tower, redeployable CCTV provides the same level of security coverage backed by proactive live monitoring.

Our Redeployable Cameras can be installed and operated in **under 20 minutes**, providing a dynamic response to emerging and developing crime patterns.

WCCTV's unique **mobile transmission technology** allows you to access footage from your cameras via our desktop software and smartphone app anytime, anywhere.

All of our redeployable units feature **three** additional input channels, allowing for bolt-on solutions such as **ANPR** cameras and blue light alarms to be added.

With our cameras we provide a built-in remote diagnostics tool, **WCCTV Heartbeat**, which continually checks the camera is performing to optimal levels.

## Remote Video Monitoring

**Our Remote Monitoring service allows security cameras to be closely monitored by a team of professionals who can issue real-time audio alerts and dispatch police where necessary, ensuring your premises and assets are completely protected when you're not there.**

Our cameras contain automatic detection capability, so any intrusions are immediately flagged to our monitoring team. This initiates a remote crime prevention process, which includes live audio challenges and the despatching of police or security personnel to protect your property and assets.

The security cameras video stream is sent directly to an Alarm Receiving Centre (ARC) or monitoring station. A team of security professionals will receive an alarm from your site and immediately review the footage to verify the alarm then take appropriate action. Monitored Rapid Deployment CCTV is a cost-effective security solution, cutting costs by 88% while ensuring 24/7 protection.

Our partner monitoring station provides a detailed report of **any incidents** taken place at your locations and give details on what action was taken - including speed of action.

Cheaper doesn't mean less effective. Our monitored CCTV systems are **always alert, always on guard** and can spot criminals even in complete darkness.

If an intrusion is detected at your site, a remote CCTV operator can activate the inbuilt blue lights, siren and voice-down systems on a Site Tower, acting as a **proven deterrent.**

Our partner monitoring station is an **NSI Gold Approved** UK-based Alarm Receiving Centre (ARC), operating sites 24 hours a day, 365 days a year.

## Mobile Key Holding Response

**Skip the 2am break-in calls with our Mobile Keyholding Response service. Paired with our CCTV Towers and live monitoring, this rapid-response security service provides an immediate physical presence at your vacant property.**

By utilising this service, in the event of unauthorised activity, our professionally trained security teams are dispatched promptly to investigate, assess and effectively manage any situation that arises.

This proactive approach ensures minimal disruption, allowing your own personnel to rest easy without unnecessary disturbances or emergency call-outs during non-working hours.

Instead of facing late-night calls due to security breaches, rely on our experienced personnel to swiftly secure your property, manage any necessary escalations, liaise with local authorities and deliver a detailed incident report.

Scheduled security patrols provide routine site checks, ensuring continuous vigilance and **proactively deterring** potential security threats before they escalate.

Customisable response procedures are developed specifically around your storage facility's unique security requirements, providing **targeted solutions** for your site.

Access to a dedicated incident management team **available around the clock** ensures swift and effective coordination with emergency services near your site.

Utilising our Mobile Key Holding service can help **satisfy insurance requirements**, lowering premiums and demonstrating your commitment to robust security measurements.

Security Solution	Description
 <p><b>ANPR Cameras</b></p>	<p>Tracks and records vehicle movements, preventing unauthorised access to construction sites and infrastructure projects.</p>
