Public Sector CCTV  
& Security Systems

## Protecting the Public Sector with WCCTV's Advanced Surveillance Solutions

WCCTV works with public sector teams tackling crime, anti-social behaviour and public safety challenges. Our portable, easy-to-use CCTV systems support temporary and long-term monitoring across neighbourhoods, housing, highways and estates, helping you protect communities and public spaces.

Public sector teams are under growing pressure to reduce crime, support safer communities and respond quickly to changing risks. From anti-social behaviour and fly-tipping to traffic management and property protection, the challenges are wide-ranging and often require a rapid response.

WCCTV works with local authorities, police forces, housing providers and other public bodies to support temporary security and long-term monitoring needs. Our plug-and-play units help tackle emerging problems, gather evidence and deter repeat offences.

### Why choose WCCTV?

- **Market-leading** wireless CCTV solutions
- **Fully-Managed Service**
- **24/7/365** remote monitoring
- **Rapid Deployment & Nationwide Support**
- **Integrated AI analytics**
- **Cost effective** alternative to guarding
- **Solar & battery** powered options
- **Integrated solutions for full-site coverage**

**At WCCTV, we leverage over 20 years of industry expertise, cutting-edge technology and a comprehensive range of wireless surveillance solutions to deliver a rapid and effective security response tailored to your needs.**

Reduce Security Costs by up to

**88%**

## Redeployable CCTV Cameras

**Our redeployable cameras are built to give public sector teams total control over how and where they monitor. Each unit delivers high-quality coverage without the need for permanent infrastructure, making them ideal for short-term interventions or ongoing hotspot monitoring.**

Deployed in minutes, easily relocatable as priorities shift and delivering access to footage anytime via desktop or mobile they are a truly mobile surveillance solution. These systems are used by community safety teams, housing officers, traffic enforcement and others, providing a reliable way to monitor problem areas, deter unwanted behaviour and capture usable evidence.

Units include built-in 4G/5G connectivity, remote access, full pan tilt zoom control, local recording and a range of alert and integration options including ANPR units. With the right setup, a single unit can often replace multiple fixed systems without tying up resources or delaying deployment.

Our Redeployable Cameras can be installed and operated in **under 20 minutes**, providing a dynamic response to emerging and developing crime patterns.

WCCTV's unique **mobile transmission technology** allows you to access footage from your cameras via our desktop software and smartphone app anytime, anywhere.

All of our redeployable units feature **three** additional input channels, allowing for bolt-on solutions such as **ANPR** cameras and blue light alarms to be added.

With our cameras we provide a built-in remote diagnostics tool, **WCCTV Heartbeat**, which continually checks the camera is performing to optimal levels.

# Explore Our Public Sector CCTV & Camera Range

**4G IR Mini Dome ANPR**

Our systems can be equipped with ANPR technology to support vehicle monitoring, enforcement and access control.

## Rapid Deployment CCTV Towers

**WCCTV's rapid deployment CCTV towers provide an immediate solution for locations that require temporary surveillance where fixed coverage is unavailable. As fully self-contained units, they are designed to operate without power, internet or on-site infrastructure, making them ideal for short-term or hard-to-cover locations.**

Typical applications include securing vacant properties, preventing fly-tipping at recycling sites, managing traffic during roadworks and providing coverage at public events. The towers create a visible deterrent and allow your team to monitor key areas in real time or retrospectively through recorded footage.

Every unit features HD video, remote access, local recording, optional audio intervention and runs autonomously via solar power, eco-friendly fuel cells, battery or generator power. Towers can be deployed in minutes, making them a practical choice for responding to urgent requests or rotating between problem areas.

Our ultra-reliable managed security services can save up to **88%** when compared with the cost of traditional guarding services, without compromising results.

We back our CCTV systems with a **full service** that includes installation, maintenance, alarm monitoring, connectivity, support and ongoing reporting.

With our camera **rental options**, you only need to pay for security when needed. No need to worry about transporting the Towers from job-to-job: we'll deliver and take it away.

At **6m tall** and **bright yellow**, our CCTV Towers are an unmistakable presence on your sites - warning intruders that your site is under our watchful eye.

## Body Worn Cameras

WCCTV is an award-winning supplier of UK Manufactured Body Worn Cameras that feature a unique forward-facing screen that has a proven impact on reducing the occurrences of verbal and physical abuse directed towards public-facing workers.

We provide a complete solution for Body Worn Video applications, including award-winning Body Cameras, digital evidence management software and range of mounting and charging accessories. We manufacture and support all of our cameras and software in the UK, allowing us to provide an end-to-end managed service that helps our clients protect their staff and secure vital video evidence.

Our Body Camera leads the market in terms of features, functionality, technical capability and ease of use for the wearer and video manager. The simple and functional design of the camera makes it easy to use, with one button to start recording and one button to stop recording. The cameras offer configurable pre-event recording buffer of up to 120 seconds.

The distinctive forward-facing screen on WCCTV's body cameras plays a significant role in **de-escalating conflict**. Individuals behave better when recorded.

Small, discreet and lightweight, WCCTV's body cameras are **barely noticeable** to the wearer once they are attached. Despite the size, it contains market leading features.

The device's **1080p video recording** capability means you will capture high-quality video evidence, whether for police investigations or training employees.

The optional extended battery pack easily clips onto the bottom of the Body Camera, providing an additional **8 hours of run time**, making it ideal for long periods.

# Organisations We Support With Safety & Security

## Local Authorities

From tackling fly-tipping and ASB to managing traffic and public events, our systems support a wide range of council-led services.

## Police

Used for crime prevention, hotspot monitoring and evidence gathering. Our systems provide extra coverage where and when it's needed most.

## Housing Associations

Protect estates, monitor communal areas and respond to resident concerns with redeployable CCTV and body cameras.

## Border Force Agencies

Rapid deployment CCTV supports remote site monitoring, vehicle checks and temporary operations in challenging locations.

Security Solution	Description
 <b>ANPR Cameras</b>	Tracks and records vehicle movements, preventing unauthorised access to construction sites and infrastructure projects.
 <b>Thermal Imaging CCTV</b>	Detects heat signatures for intrusion detection in low-light conditions or fire prevention on construction sites.
 <b>AI Video Analytics</b>	Intelligent surveillance that reduces false alarms, detects unauthorised access and enhances security response times through automated alerts.
 <b>Bodyworn CCTV</b>	Wearable security solutions to ensure the safety of remote and isolated workers, with real-time monitoring and emergency alerts.
 <b>Evidence Software</b>	Our Evidence Management Software (EMS) is designed to provide users with a simple solution for managing digital files captured by a WCCTV Body Worn Camera.
 <b>Software Solutions</b>	Our software allows you to add cameras, control them, create automated tours, receive alerts and view live and recorded footage at any time, anywhere.
 <b>Stellifii Platform</b>	Stellifii is a UK Manufactured 5G-ready platform that combines video streaming with smart city applications in a cloud-based ecosystem.

# PROTECT

Body Cameras for Safety & Security

**Stellifii: Smart by Day  
Secure by Night**

**Stellifii is WCCTV's UK-manufactured platform that delivers mobile surveillance, monitoring and remote insight. It combines video, analytics and IoT data in a powerful, cloud-based ecosystem designed to give users full visibility, intuitive functionality and intelligence.**

But it's more than just a Video Management System (VMS) or transmission platform, it's a complete cloud-based ecosystem that transforms how mobile surveillance solutions operate and how users interact with them.

It brings together wireless video connectivity, condition monitoring data, system diagnostics and reporting tools into a single interface that can be accessed at any time from anywhere. Developed completely in-house by WCCTV, Stellifii delivers a comprehensive solution for remote monitoring, control and actionable intelligence. Whether you're monitoring cameras, pulling air quality data or generating a compliance report, Stellifii can do it all.

**Stellifii consists of: Safety PPE / Traffic, Smoke & Fire Detection, License Plate Recognition, Environmental Monitoring, Weather Monitoring, Performance Diagnostics, Video Options (IR, PTZ etc), Live Automated Audio, LED Deterrence, Time Lapse, Secure Cloud Software and Mobile Applications.**

Stellifii is fully built and managed by WCCTV in the UK. This means faster innovation, direct support and complete control over performance, updates and data security.

Access footage, control settings and generate reports from anywhere. No need for DVRs, server racks or manual retrieval. Just log in and manage your entire network.

Plug in environmental monitoring tools, gather air quality data, check decibel levels or run compliance reports from one platform. Stellifii moves beyond standard security.

Built on UK government-approved infrastructure with AES256 encryption & European or North American components as standard. Fully compliant & future-proofed.

## WCCTV: Industry Leader in Public Sector Security

For over 20 years, WCCTV has been at the forefront of wireless CCTV security, providing industry-leading surveillance solutions that protect your public sectors. Our cutting-edge technology and proven expertise ensure seamless security coverage, reducing the risk of theft, vandalism and unauthorised access.

### Local Focus, National Coverage

WCCTV are proud to have the infrastructure and capability to offer a full service delivery throughout the UK.
