

The WCCTV Drop Box

Wireless CCTV (WCCTV) is a market leading provider of rapidly deployable, portable CCTV and surveillance systems. The systems operate over wireless technologies including 4G and 3G mobile phone technology as well as satellite, Wi-Fi and broadband networks. This makes the systems ideal for redeployable solutions in temporary, mobile or semi permanent situations.

Live and recorded video images can be viewed from a dedicated monitoring station, laptop, iPhone, iPad or android device. Up to six separate connections can be made simultaneously to any system. So it's not just a portable camera system, you also have portability in how you view those images.

The WCCTV Drop Box

The WCCTV Drop Box is a rapidly deployable, covert product which has been designed to be installed rapidly into any location or environment.

The system blends perfectly into existing surroundings in common areas of buildings, warehouses and manufacturing plants. It can also be deployed externally.

A hidden camera captures the video footage which can be viewed and downloaded remotely from a PC, laptop or mobile device over the mobile phone network. The recorded images are all date and time stamped and are of evidential quality.

The system can be either mains powered or battery operated. It is possible to remotely arm and disarm the battery operated system to extend its operating life.

At the end of the operation it is possible to remove and replace the compact flash recording device and relocate the system to another location within minutes.

Transmission Methods

Wireless CCTV utilises its expertise in telecoms and CCTV to provide state of the art products and systems which are capable of operating over remote transmission media.

Every WCCTV product contains 4G technology allowing the transmission of fluid, high-resolution images and bidirectional audio, wirelessly without geographical restrictions.

This makes WCCTV equipment ideal for mobile and covert operations. Automatic fall-back to GPRS guarantees virtually unrestricted geographical coverage.

Wi-Fi technology can be added to the system on request. This additional feature enables high speed downloads up to 100m away, using a Wi-Fi enabled laptop.

Features & Benefits

- Contains integrated SIM card for viewing and downloading of images
- Portable and rapidly re-deployable
- Simultaneous live video, recording and playback from multiple devices
- Compatible with WCCTV software
- Remote control with full pan, tilt & zoom functionality
- Switches available to remotely activate battery on a covert sleeper unit

Possible Applications

- Disorder and graffiti
- Anti-social behaviour
- Vandalism or illegal activity in communal buildings
- Theft or harassment in the workplace
- Fly-tipping

General	Dimensions (HxWxD)	210mm x 180mm x 115mm
	Operating Temperature Range	-30 to +50°C
	Power	110-240 Volt input (mains powered) or 12 Volt DC (battery powered)
	Power consumption	60W (minimal)
	Weight	1.5kg (mains powered) or 3.7kg (battery powered)
Video	video inputs	1
	Operation	Simultaneous live, record, playback, remote access
	Maximum FPS	25
	Recording	Proprietary narrowband algorithm
	MutiMode (Recording Algorithms)	Dynamically changes record rates and compression settings for the camera
	Snapshot Video Clip	No
	Video Motion Search	Yes
	Archive Protection	Yes - Protect against overwriting
	Wireless Communication	Supported via suitable interface - GSM, GPRS, UMTS, HSDPA, HSCSD, CDMA
Storage	Internal capacity	16 GB, 32 GB, 64 GB, 128 GB
	HDD Types	Removable compact flash
	Export	HSUPA / Network / Optional removable CF card
Alarms	Alarms and Relays	1 input N/O or N/C
	Alarm Function Support	Alarm log, event search, pre-event recording
	Alarm Reporting	Yes - to a remote site via email
	Display Alarm on PC Monitor	Yes or Network / HSUPA
	Video Motion Detection	Yes
Networking	Remote PC Client	Client software free download
	Remote Web Browser Client	Viewing
	Password Protected	
	Remote Smartphone (iPhone) Compatible	Yes
	Remote Tablet (iPad) Compatible	
	Software Upgrade	Internet / HSUPA / back to back PC
	Warranty	12 months warranty with options for extended warranty
